

Trust Utility Management Ltd is a Utility Contractor working in all utility sectors, Electric, Water, Gas, Telecoms and Highway Electric Street Lighting, providing installation and maintenance services along with the associated civils aspects of such works including excavation, reinstatement and traffic management. Its vision is to be synonymous with professionalism and innovation together with faultless and safe project delivery in every operational area.

A key way to achieve this is by operating a Quality Management System (QMS) in accordance with the requirements of ISO 9001: 2015.

Top management is committed to:

- Satisfying applicable requirements by ensuring that customer and applicable statutory and regulatory requirements are determined, understood and consistently met.
- Continual improvement of the QMS by ensuring the risks and opportunities that can affect conformity of products and services and the ability to enhance customer satisfaction are determined and addressed and the focus on enhancing customer satisfaction is maintained.

Top management shall:

- Take accountability for the effectiveness of the QMS.
- Ensure the Quality Policy and Quality objectives are established for the QMS and are compatible with the context and strategic direction of the Company. Quality objectives have been set and are maintained as part of the QMS internal auditing, monitoring and management review process, in order to enhance customer satisfaction.
- Promote the use of process approach and risk-based thinking.
- Ensure that the resources needed for the QMS are available; including training, support and encouragement.
- Communicate the importance of effective quality management and of conforming to the QMS requirements.
- Ensuring that the QMS achieves its intended results
- Engage, direct and support persons to contribute to the effectiveness of the QMS.
- Promote improvement.
- Support other relevant management roles to demonstrate their leadership as it applies to their area of responsibility.
- Establish partnerships with suppliers and interested parties to provide an improved service.

This policy will be communicated to all employees and organisations working for or on our behalf. Employees and other organisations are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own work, so far as reasonably practicable, is carried out without risk to themselves, others or the environment.

To comply with the requirements of ISO9001: 2015; NHSS Sector Scheme 12D for Temporary Traffic Management; NHSS8 Sector Scheme for Installation of Highway Electrical Equipment; and the National Electrical Registration Scheme, this policy will be reviewed annually by top management and where deemed necessary will be amended and re-issued. Previous versions of this policy are archived.

This policy is available to relevant interested parties, upon reasonable request.
